

# TOP DOCS

*Pasadena Magazine* has once again reached out to thousands of medical professionals in the San Gabriel Valley and beyond, asking them to tell us who they felt were the best doctors in their respective fields. Now, we are thrilled to bring you our 2011 Top Docs, a collection of physicians in 70 specialties voted at the top of their game, by those who know them best — Doctors!

**THE VOTING:** *Pasadena Magazine* sent sample ballots to the medical community announcing the Top Docs voting process and our secure voting website. Doctors from all over the San Gabriel Valley and Los Angeles area voted online for the most esteemed physician in his or her chosen field. The online votes were tabulated and their credentials verified by outside attorneys at law, Yee and Belilove LLP, Pasadena, yeelaw.com.

**OUR PURPOSE:** The purpose of this list is to provide our readers with useful information as a supplement for input from other sources. We encourage all of our readers to research any potential doctor further; the Medical Board of California's website (medbd.ca.gov) is a great tool for locating additional information. Physicians from the medical community selected these doctors, however, there are many exceptional doctors who may not appear on this list. We hope these results will provide our readers with choices in their search for quality medical practitioners. Please join *Pasadena Magazine* in commending these doctors for their outstanding service!

*By including a doctor on the list, Pasadena Magazine in no way recommends or endorses his or her services. For discrepancies, please contact editorial@pasadenarose.com.*

## Adolescent Medicine

*Focuses on care of patients who are in the adolescent period of development.*

**MARVIN BELZER**, Children's Hospital Los Angeles, Los Angeles, 888.631.2452
